

■ Representing

Jennings Alberts, Inc. has been providing engineered solutions and process equipment to the food industry for nearly 50 years. The food industry uses a broad spectrum of products for applications such as vacuum packaging, food production, food processing, cleaning and product transfer.

Vacuum Pumps and Systems

- Rotary vane, liquid ring, dry claw, dry screw vacuum pumps
- Vacuum pumps for packaging and processing
- Central vacuum for energy savings in packaging department: bag makers, case erectors, pick and place, robotic handlers, etc.
- Aeration and de-aeration applications
- Vacuum systems for edible oil deodorization

Heat Transfer Equipment

- Central hot water systems for plant wash down and hose station service
- Instantaneous hot water heaters for CIP and process water
- Heat exchangers for temperature sensitive products
- Sanitary heat exchangers
- Engineered heat transfer skids
- Kettle jacket temperature control units
- Direct fired heaters for edible oils
- Holo-Flite® indirect heat exchanger for heating, cooling and drying bulk solids

Blowers and Material Handling Equipment

- Vacuum and pressure rotary lobe blowers
- Rotary airlock/feeders and diverter valves
- Major and minor dry ingredient pneumatic conveying- vacuum and pressure transfer
- Bulk bag discharge stations
- Bin activator for common flow problems in dry material storage

Mixing and Dispersion Equipment

- In-line mixing and rapid dispersion of additives
- Dispersion of: thickeners, stabilizers, xanthan and guar gums, flavors...

Service and Accessory Equipment

- Repair Center - Factory Authorized
- On-Site Planned Maintenance
- OEM parts, lubricants, filters, etc.
